PROJECTS

FOOD RECIPE APP

This app provides flexibility to user to search top rated and variety of recipes from available recipes in cloud. This is very handy application, which every user can search cloud for recipes. This app is time saver providing recipes in few clicks. By combining ingredients and title search, Food Recipes app makes finding recipes easy. With recipes being added daily there will always be something new for user to crave.

Stack used : Reactjs Bootstrap Edamam's Recipe Search API
